HIGHGATE APARTMENTS RENOVATION/ SITE IMPROVEMENTS HOUSING

BARRE, VERMONT

Highgate Apartments, New sidewalks & Site Grading

New Retaining Wall

Dufresne Group (DG) provided civil/site engineering for improvements made to the 120 unit affordable housing project, managed by Housing Vermont, located in Barre, Vermont. Civil/site improvements included providing site drainage and a stormwater conveyance system and installing building underdrains to capture groundwater and alleviate wet basements. The project included the installation of several retaining walls, improvements to sidewalks, a new playground, dumpster pads, and improved parking areas.

DG worked with the owner, architect and contractor to provide Value Engineering Services to keep the project within budget and meet scope requirements.

KEY FEATURES

- Topographic Mapping
